

AMDREY project dissemination workshop and ERAMIN2 2017 Call information session

Invite

Date : 27 February 2017
Venue : National Research Foundation (NRF) Auditorium
Time : 10h00- 17h30
Thematic area : Primary Resources and Secondary Resources; Substitution of Critical Raw Materials under a circular economy approach

The Department of Science and Technology (DST) will be hosting the Extraction of Rare Earth Elements from Acid Mine Drainage “AMDREY” project partners from the University of the Free State (UFS), Spain, Germany, Peru and France. Industrial Handling of Raw Materials for European Industry (ERA-MIN) is a project that the DST co-invested in for UFS’s participation under the European Union (EU) Seventh Framework Programme (FP7).

The main aim of the event is to:

- Showcase the progress of the AMDREY project to date which intensify the achievement of the SA-EU STI cooperation;
- Present the ERA-MIN 2 2017 joint call.
(<http://www.era-min-eu.org/news/134-era-min-2-officially-launched>).
- Provide networking opportunities for SA mining and raw materials researchers.

NB: You are requested to register your participation by visiting the following link:
