UK-South Africa Science & Technology co-operation

Tim Moody, 19 July 2013

Summary of co-operation

- > **Reinvigorate our S&T relationship, underpinned by UK/South Africa Agreement on Science and Technology (1995)**
- > **Build on considerable existing collaboration and links between UK and South African researchers and institutions**
- > **Priority areas: astronomy, space, health, the bioeconomy, renewable energy, regional partnerships.**

UK/SA S&T Instruments for societal benefit

- > **Global Partnerships Fund projects (example)**
- > **NRF/ Royal Society Scientific Seminar Scheme**
- > **Prosperity Fund, of around R12m/year (example)**
- > **Department for International Development - Research and Evidence Division (example)**
